SECURITY TIPS

Dear Residents,

Please make special note of the following common sense security tips.

Make sure all external doors are securely

locked – Front door / side door / back door / garden doors. Propping open exterior doors compromises the security of all residence. Always use your deadlock when leaving your apartment. Always set your alarm if fitted.

Be curious – Know your neighbours. If someone is in the building or the gardens and you don't know them, consider asking them who they're looking for.

If you are concerned, don't hesitate to call the

Gardaí – Put your nearest station number in your phone contacts. Station numbers:

Donnybrook: (01) 666 9200

Rathmines: (01) 666 6700

Ternure: (01) 666 6400

Never let someone you don't know into the

building – Even if they say they are looking for another tenant, they must contact the tenant they know directly. Let us know if a hall or external light is not working. Let us know if someone else is compromising the security of your building!
